

Beautiful timber ~~tables~~ cabinets!

A beautiful sports car is not just about getting yourself from A to B as quickly as the speed cameras will allow. It's about experiencing the art of great design and engineering. From the opening of the garage door to admire the sensual curves of the body work, the solid 'clunk' of the carefully engineered door handle, the earthy aroma of the stylishly stitched leather upholstery to the purr of the engine and the 'top down' wind teasing your hair as you negotiate the bends – the tyres hugging the road – and, let's be honest, turning a few heads!

'Ims' cabinet
2100 x 900 x 550mm \$9950

We have been designing and building beautiful furniture with just this experience in mind. The 'Ims' cabinet here pictured combines a bold, eye-catching, asymmetric design, expressed in rich dark Jarrah and marble like 'birds eye' Stringy Bark. Yes, it *is* great storage space but every time you touch the custom made handles, run your hand over the crisply mitred case or just walk past on your way to the kitchen, *it is the experience of admiration and enjoyment that endures!*

See a collection of outstanding timber furniture at our studio: Unit 1 (rear) 266 Bolton St, Eltham. Open Tues-Sat. Tel 9431 6110
